

Downtown Construction Activities

Proposed work activities for the week of September 6th, 2021

- The contractor at the Generals Bridge project will finish installing new masonry veneer panels and street lighting a top the plinths. The Thomas Burgin Parkway north bound lane on the west side adjacent to the bridge remains closed. Traffic is reduced to one lane in either direction with the concrete barricades on the sides. Vehicular traffic should use caution when entering this area.
- At the McConville Way project the contractor will finish construction of the catenary lighting and cleaning in the alleyway between the 1495 and 1500 Hancock St buildings. At the future pocket parks, the contractor will finish the install of security cameras, communication equipment and Wi-Fi transmitters. In addition, the contractor will be installing the remain ornamental street signs and posts.
- Work continues along the face and above the existing 25 Temple St building for the new structural steel and prefabricated structures. Currently, the sidewalk along Temple St and Washington St at the building remains open during construction. The contractor will continue installing the new prefabricated structures above the existing building in the next few weeks. There will be temporary detours as the prefabricated pieces are being set in place.

(The photo on the above left shows the install of a new streetlights a top the bridge plinths. The above right photo shows the install of one of the new sculptures within the pocket park.)
